Gary,

Attached is the summarized assessment data for the 10/4/2018 assessment sampling conducted at FJ Doyle.

I assumed the following action levels.

- Wipes (PCBs) = 10 µg/100 cm²
- Paint (Pb) = 5,000 ppm (see the attached HUD document)
- Soil = Site-specific COCs outlined in Action Memo

Let me know if you have any questions.

Thanks,

Sean Gavlas
